LOQ: Limit of quantification.

Sample conclusion:

The analysed sample is in accordance with (EU) 2021/1165 (Authorising certain products and substances for use in Organic production and establishing their lists) and EU 2018/848 on organic production and labelling of organic products and repealing Council Regulation (EC) No 834/2007 in its currently valid version.

Note: Conclusion is provided with respect to above tested Pesticides and Ethylene Oxide (sum of ethylene oxide and 2-chloro-ethanol expressed as ethylene oxide) only. The measurement uncertainty for the analysis of the pesticides is $\pm 50\%$.
